PARTNERSHIP PROPOSAL BETWEEN EUROPEAN SCHOOLS

Hello,
we are an Italian government school in Novara, a town between Milan and Turin.

Our Institute is home to 3 kindergartens (students between the ages of 3 and 5), 2 primary schools (between the ages of 6 and 10) and 1 lower secondary school (between the ages of 11 and 14), with a total number of over 1100 students

In February 2024 we achieved an Erasmus Accreditation. Thus, within this project, we would be pleased to foster a fruitful collaboration with you in order to exchange and share good educational practises. Over this

school year 2024-2025 we will be able to take 6-7 students from the lower secondary school to your school. They will spend a whole school week there. The entire cost will be charged on us. We only need to be hosted by a class of peers, or nearly peers, in classrooms or specific locations suitable for this experience of mutual knowledge. Our students will be accompanied by two teachers who will make new contacts with colleagues from your school so as to lay the foundations for a new partnership and exchange.

At the end, if you think this experience is positive, it will be possible to carry on collaborating in the next years.

This might lead to the birth of fixed and annual common projects.

The Ministry of Education and Merit of the Italian Republic, prof. Giuseppe Valditara, has recently been on a visit at our Institute. He has shared our same idea of Education as the keystone of the European Community.

march 2023

Dott. Domenico Bresich, Our Principal, strongly believes in the European dimension of the school system. For years he has been supporting and encouraging any experience which, like the Erasmus+ Project, opens the minds of those who decide to go through it.

He sends to you greetings and best wishes on behalf of the entire school and of the town of Novara.
